

FAY MORRIS

brings to "Symbiosis" an expertise gained during a lifetime working with clay. A master of the experimental, she brings her considerable skill to bear in designing and creating forms of grace and beauty on her potter's wheel. Fay's pots celebrate line, and form-beauty in its purest, unadorned incarnation.

Especially for "Symbiosis", Fay has then turned over many of these forms to Deb Gillett, to be adorned with angels, nudes, dragons, frogs... The results speak for themselves. These pieces are like nothing you have ever even dreamed before. Each one unique, each one a thing of joy. Fay and Debbi, working together as

specifically for "Symbiosis" have wrought a new and precious world for you to enjoy.
