

GODS TAPESTRY.

God's tapestry is a coral garden beneath the deep blue sea,
with fishes swimming in wavering polyps and sponges free.
Green leaves shrouding and wrapping around tree trunks wide,
Perfumed rainbow coloured petals in a flower garden or wild
country side.

Graceful birds with colourful plumes nesting in trees or soaring
high,
Fluffy white or angry grey clouds in patches of blue sky,
The orange , pinks, golds, purples, greys of sunrise or sunsets.
butterflies fluttering wings, flying free , not caught in nets.

Stars twinkling like diamonds with a golden moon in the black
velvety sky.
The pale red, orange, yellow, green, blue, indigo and violet of
a rainbow fanning high.
These wonders are all woven in God's tapestry.
