

# WHERE SEDIMENT FLOWS

*Another Department has lost the plot,  
Sediment traps and all that rot.*

*The farmer now has to build a trap,  
To collect the rubbish and all that crap.*

*While the farmers down lets kick some more,  
With trap applications 70 bucks or more.*

*What proof do we have of sediment flow?  
Is it there? Where does it go?*

*If Government departments took a rest for a year,  
A farmer's life would be good up here.*

*If this is where the countries at,  
Let's grab a chair and sit on that.*

*Let government departments feed us all,  
Then we'd find the Countries fool.*

*"FOOD DOES'NT COME FROM A FARM, DOES  
IT?"*
