

MUSIC.

Music is joy to our ears ,
Gets hearts dancing,
Full of cheer.
Music is for lovers,
Its just the ingredient
For romancing one another.

Music is the sound of the sea tide,
Ebbing and flowing far and wide.
Music is a magnificent horse,
Racing, galloping and prancing
Of cause.

Music is the feel of a kiss,
Giving a delightful feeling
Of bliss.
Music is Australia's unique flora and fauna,
Growing or living near or far.
Or just around the corner.

Music is our Australian land,
Our rivers, mountains, tablelands,
Coastal shores and wide brown plains.
Be it winter , summer, autumn , spring
In drought or flooding rain.

Music is heaven on earth
Filling our life with
Rapturous mirth.
